About Me

-Strong hold in Data Structures and Algorithms and OOPS concepts

Third-year student majoring in Information Technology, I am actively seeking opportunities in the software development field. With a solid grasp of Data Structures and Algorithms, Object-Oriented Programming, and web development using HTML, CSS, and JavaScript, I am well-equipped to contribute to impactful projects. Additionally, my proficiency in C, C++, and Java allows me to tackle complex programming challenges efficiently. Eager to apply my skills and knowledge in a practical setting, I am determined to gain valuable experience and continuously expand my expertise and knowledge in the field of software

development.
